

Judy Glazer Bio

Judy Glazer is Hewlett-Packard's Director for Global Social and Environmental Responsibility (SER) Operations. This operation implements social and environmental responsibility (SER) policy into HP's products, programs, and supply chain – from design and materials through manufacturing, distribution and end-of-life. Its charter includes measuring and reducing the carbon footprint of HP's programs and \$50B supply chain, and implementing HP's supply chain code of conduct that raise standards in the electronics industry supply chain.

Her team leads HP's global RoHS and REACH program and other efforts that (1) track and remove potentially harmful materials in HP's products and packaging, and (2) ensure substitutions have reduced environmental and human health impacts.

Glazer joined Hewlett-Packard in 1989 and has held a variety of supply chain and engineering roles. She holds MS and PhD degrees in Materials Science and Engineering from the University of California, Berkeley.
